

**Rapid Deployment CCTV Towers are the ultimate all-in-one temporary security solution.**

VSS-TE034 provides a highly visible deterrent with high-definition CCTV coverage day and night, which can be installed and fully operational in around 20 minutes.

The camera can be positioned up to a height of 5 metres using the simple to use, telescopic winch system that folds down after use. Events and recordings are sent via 4G and power provided by a 2000 mAh battery pack with solar panel.

- **Provides a visual deterrent.**
- **Mobile and secure.**
- **Easy to deploy and simple to use.**
- **Adjustable height to 5 metres.**
- **Pan, tilt and zoom cameras, easily configured through an App.**
- **Recordings triggered by motion detection.**
- **Alarm notifications sent to recipients.**
